

Help us to collect stamps - to help the LC International Service Project 2007-2009

Take this as an easy little challenge -

Because it is exactly what it is!

Everybody receive a single or more letters a day or during the week. Some letters are still with the “old fashion” stamps. These used stamps can be money worth. Tear the corner of the letter with the stamps on, as on the photo above, every time you receive such one. Collect by you self or together with your club. Get some help from colleges, your work, family and friends. Collecting used stamps give us a higher attention to the LC ISP, in our daily life. And I will of course collect the stamps you are using to send your stamps to me.

Send the stamps to: LC18 Svendborg-DK, Lene Hoeffner, Rantzausmindevej 195, DK-5700 Svendborg – Denmark. So I will receive them before the LCI Conference in India, latest the 1st of June 2009.

I will before the coming LCI Conference, sell the stamps to our agent, and become some money fore them. The agent pays us money pr. Kilo. If we can order the stamps in country-order we get more money for them. Therefore; write country name on your bags/envelopes. This money will immediately be send to the LCI Service Project 2007-09.

All stamps are welcome, both small amounts and big amounts. Let us try to trade the small stamps into big money – as you no: lots of small brooks make a big stream.

Thank you because also YOU are taking this challenge. *Not a girl, Not yet a woman.*

**Thank you and all the best to you from;
Lene Hoeffner - LC18 Svendborg - Denmark (from the LCI Service Project 2005-07)**
