

LCI CONFERENCE IN BANGALORE – INDIA – AUG. 2009

The journey starts from two different places in Norway:

Bjørg K. Lunde from Nordhordaland next to Bergen and Eirin H. Moe from Mo i Rana, Northern part of Norway.

In true LC-spirit we travel together – without knowing each other previously. What we know is that we both have been in the Norwegian LC-board at two different times.

We are now supposed to spend the next 14 days together in the same room, and maybe in the same bed!

Little we do now in advance – what the journey will give us of strong, memorable, tear-filling and true memories.

Below we give a small selection of pictures:

We started with one-week bus-ride visiting "The Golden Triangle" - Delhi – Agra – Jaipur – a strong and unforgettable drive that really has marked our souls. The contrasts between all the impressions are massive.

A guided tour for a whole day at the Indian Presidents Palace and even visiting the president herself. A visit that was great for us members of the Lady Circle but maybe even more so for the president – as she in her speech was talking warmly of the importance of female networks world wide. (Unfortunately we had to leave the camera before entering the palace.)

We also visited the SARIS-project of LC (building toilets in schools) and the school which is run by Round Table with great support form all over the world. The pictures show some of our experiences:

A selection of pictures from one visit at a school where there are build SARIS-toilets.

The opening ceremony with lots of colourful ladies from all over the world.

As usual we walk in a parade where ladies from each nation are dressed the similar way.

We ladies from Norway chose to bay Saris which had the Norwegian colors: red, white and blue.

Bjørg and Eirin give our thanks for an unforgettable journey – and for the opportunity to get to know each other so well. It is a privilege to be in the Lady Circle 😊
